About Dr. Nancy

“Sexy doesn’t have an expiration date.”

Keeping intimacy hot & spicy for the long haul is Dr. Nancy’s professional and personal passion.

Dr. Nancy Sutton Pierce has an eclectic background, which places her expertise in a league of its own. The compilation of her career as a registered nurse, health educator, [sex & relationship author](#), [radio talk show host](#), and yoga therapist fuels her passion as an International speaker, sensuality educator, and Exotic Lifestyle Retreat CEO. Designer Sexuality, Intimacy Communication, Sensual Movement and Exotic ~ Erotic Lifestyle Coaching; all fall under her umbrella of ***Conscious Living Sexuality™***.

“My most rewarding work is teaching about Designer Relationships & Sexuality, Intimacy Communication, The Art of Sensual Touch, and Erotic ~ Exotic Lifestyle Retreat Experiences. Watching men and women wake up to their full sexual energy is like watching a sunrise – you never tire of the natural beauty and they are all unique”.

When not traveling the globe inspiring others, Dr. Nan enjoys being able to return to her Northern California home with the love of her life for over 30 years, Dr. Mark Pierce. Together they have raised three children into adulthood and now bask in what she refers to as “the dessert of parenting”, being grandparents to three amazing little girls. She is well loved and respected in her community and abroad as a healer, educator and valuable resource.

Earning her Doctorate Degree in Human Sexuality from the Institute for Advanced Study of Human Sexuality in San Francisco has broadened her reach around the globe. In the last year alone she has travelled to China (three times), Mexico, Jamaica, San Francisco, & Los Angeles teaching Conscious Living Sexuality. You can experience a sampling of her *Conscious Living Sexuality* & Sensual Yoga Retreat on the [Kendra On Top](#) Show (Season 4, Episode 12).

Dr. Nan is a frequent contributor for [www.Sexpert.com](#), Cosmopolitan Magazine, and several on line blogs for [www.NancySuttonPierce](#), [www.AsYouDesire.net](#) and [www.ConsciousLivingYoga.com](#). Dear Friends and Colleagues,

I'd like to share my story with you.

Since earning my degree in nursing in the 1980's I've worked in many areas of health care; Oncology, Medical & Surgical, Orthopedics, Pediatrics, Urgent Care, Out-patient diabetes care, and my favorite area of hospital nursing, Obstetrics. I have always been passionate about helping people improve the quality of their lives in any way possible. My career has spanned over 30 years and has transitioned from hospital nursing to outpatient care, then to a holistic approach through yoga as therapy in my own Conscious Living Yoga Studio, health education and now to the field of Sexology.

As a health educator, I have used many media outlets to impart my knowledge and unique perspective of self-responsibility and ownership of the design of our lives. This has led me to write for numerous publications, create my own popular blogs and become a radio talk show host of my own weekly program, The Conscious Living Show. I'm always learning and sharing what I learn – this is what fuels my passions.

In 2010 I was exploring my curiosity about the difference between erotica and pornography; From a woman's perspective. So, I teamed up with a film producer and we created the first Erotic Film Festival for women and the men who adore them (Erotikos). We included full feature films, shorts, documentaries and music videos. All films were chosen by me for entry since I wanted this to reflect a woman's perspective of erotica. The films chosen represented 13 countries and more than half were from women. Zalman King, The King of Erotica, called us personally and was the first to submit a film. Sadly, he passed away seven months before our festival, where he and his life's body of work were honored. His final film, Pleasure & Pain, won for Best Picture.

The resulting serendipity was the relationships spawned from the Film festival, and those who would continue to influence my life and direction of my career. The primary person of influence was and continues to be, Dr. Ava Cadell. After a brief meeting, we knew we were kindred spirits and she graciously agreed to be a judge for Erotikos. Dr. Ava turned me on to the world of Clinical Sexology. She has since mentored my professional course and was instrumental in opening the door for me to earn my Doctorate in Human Sexuality. I now have the privilege of working with Dr. Ava on many projects and have travelled with her as an assistant and colleague... both of which are a delight and an honor.

The professional field of Clinical Sexology is the perfect arena to utilize all areas of my expertise, with the added spice of a comprehensive understanding of our sexuality. As a holistic practitioner, I'm highly aware of the influential factors that either support or degrade our sexual fulfillment and freedom of expression. My education has created a more compassionate, non-judgmental perspective of sexual proclivities and an even greater fascination for the wide spectrum of possibilities for humans to experience. I passionately bring this wisdom into my seminars, destination retreats, writing, counseling and my personal relationships.

“An Open-Mind Is a Free-Mind.”

Traveling the world sharing my passion for passion is the best of all worlds for me. I am curious, interested and motivated to be a part of positive change. Witnessing people awaken to their inner fire is what drives me to globalize Conscious Living Sexuality™. I appreciate the opportunity to help make shift happen. Audiences leave my seminars with a renewed energy for living their authentic lives with a more compassionate, loving, (yet spicy and fun), appreciation of their sexual personality and interpersonal relationships.

Keeping Life Spicy,

What Dr. Nancy's Clients, Colleagues & Fans Have To Say

"I can clearly state that Dr. Nancy Sutton Pierce has helped to bring her expertise as a sexologist, nurse and yoga instructor to educate the masses with her vibrant personality. Her presentations are always filled with interactive audience participation and lots of take-home value for enhancing relationships and expanding sexual horizons."

Dr. Ava Cadell, Author, Speaker & Founder of LoveUniv.com

"Dr. Nancy came into my life at exactly the right time, as I was just beginning to explore a brand-new area of my sexuality for the first time. She offered me the advice and counsel of someone who really cared and who went out of her way to offer various ideas that were brand new to me and to my 60 years of thinking. She helped me embrace my new sexual interests and suggested that I seek like-minded people who were interested in what I was doing, and to develop a "community" in which to share my new-found interests. I will be forever grateful to her for her confidentiality and the empathy and interest she took in me while I started my new life journey into an area of my life previously unforeseen!"

DAN, 60, Public Relations Executive, Beverly Hills, CA

"Nancy is one of the most intelligent woman I know. A great soul and a great teacher!" Cheers!

"Dr. Nancy is amazing. As a videographer, I've witnessed many people lecture to large groups, but I can't think of anyone more dynamic and loving than Nancy. After seeing Nancy speak to 300+ women in China, the line afterwards to meet and greet her was wrapped around the building. Nancy has the most open and loving energy that just intoxicates a crowd."

Robert James, Producer/Director – NuReality Productions

"Great insights and honest which the world is in dire need. IMHO that is 😊."

I would recommend anyone to work or join her on any of her ventures she has. What has started as a great business opportunity grew into a wonderful extended family."

Frank Krave - Entertainer

Oh man! How do I even begin to express what I've learned from Dr. Nan? She has taught me so much about myself and about life all around! Coming into the exotic lifestyles group I didn't know what to expect, but after a class of Hedo 101. I was ready to take on the challenge of getting to know myself better and others! I look forward to leaving the country with her and the rest of the group as much as I can possibly handle! Going from being a lifestyle virgin to being the social butterfly I have become! . I'd pay extra Money just to travel with Dr. Nan... Ok I'm done telling you all how wonderful she is... And how great Hedo is too. You won't know until you go!! Over and out.

Trisha Mailei, ELR Repeat Travel Client

She provides a safe environment that is full of fun. I highly recommend attending her events. You will leave with a renewed sense of yourself and some new, crazy (in a good way) friends!

Kisha – Repeat Event Guest & Hostess

As many of the other reviews will state, Dr. Nan is simply one of the most professional, accepting, knowledgeable and positive individuals I have ever had the honor to meet. In the past few years, I have had the pleasure to accompany Exotic Lifestyle Events on not only one, but two trips to Hedonism II! Both times were absolute paradise! Dr. Nan makes booking your trip with Exotic Lifestyle Events quick and easy and provides an array of classes/excursion during your stay to keep you entertained and titillated! Not only does Dr. Nan take great care in creating a safe, fun and sex positive environment, she is always willing to help answer any questions related to her field of study. I highly recommend **all** her events, especially her Intimacy & Sex Magic Retreat which she **hosts during Valentine's week**. If you are looking to book a trip that will ignite your mind, body and soul book through Dr. Nancy and Exotic Lifestyle Events - you WILL NOT be disappointed. ❤️

Kay York, Repeat ELR Guest

I follow your posts and love seeing your videos. Aside from being a very beautiful lady, you are very classy, educated and very sincere. The thing I love most about you is your honesty and openness. You're not judgmental of others and you always seem to respect others who have differing opinions. Anyone can look good, but you have special traits; nice, positive attitude, educated, etc. Although I find you intriguing, I love hearing about your view points. I may not have a more open lifestyle, yet I respect and agree with a lot of what you say – and boy does all that make you incredibly intriguing! I'm not sure I will have the freedom to find happiness like you seem to have found, and no I'm not unhappy with my life, but I do enjoy living vicariously through you at time.

Your Fan, AB

I am deeply grateful to have met Dr. Nancy in 2015. She has been a dear coach and mentor to me. Her support during times of great change in one of the most delicate areas of my life has been Godsend. Her breadth and depth of experience shines through every moment of my working with her. Dr. Nancy's being expands her capacity beyond listening and facilitating personal growth, to being a loving, wise and inspiring helper and companion on one's transformation journey. I have found in her, a truly passionate soul who is a spot-on embodiment of living in alignment and flow. I am hugely honored to be part of her leading edge, visionary work, that encompasses a wide range of intimacy contexts including promoting a healthy balance of feminine and masculine energies.
