Dr. Nancy Sutton Pierce's eclectic background places her expertise in a league of its own. The compilation of her career as an RN, health educator, intimacy author, radio talk show host, and Yoga Therapist all fuel her passion as an International speaker and Clinical Sexologist.

Earning her Doctorate Degree in Human Sexuality has broadened her reach around the globe. She has been invited to speak in China, Mexico, Jamaica, San Francisco, & LA, aboard cruise ships in the Caribbean, Mexico & Europe, teaching *Conscious Living Sexuality™.* You can attend her retreats, seminars and courses in a variety of locations in addition to NIN.

When not traveling the globe inspiring others, Dr. Nancy enjoys her home life with the love of her life for over 30 years. They've raised three children and now bask in what she refers to as "the dessert of parenting", being grandparents. She is well loved and respected in her community, by her colleagues, and abroad as a healer, educator and valuable resource.
